BellesBoard

What is *BellesBoard*?

BellesBoard is a web-based portal – a one-stop shop for securing, organizing and accessing board information.

What problem is *BellesBoard* solving?

We developed *BellesBoard* after speaking with dozens of executive directors who said that they experienced ongoing governance challenges, specifically related to the time spent on board management and engagement.

With *BellesBoard*, you'll no longer have to circulate the same board-related information multiple times or answer the same questions repeatedly regarding meeting logistics and contact information. *BellesBoard* secures important board documents <u>in one central location</u> and eliminates time-consuming email searches.

> *BellesBoard* enables board members to:
>
> - Find information and files about past and present board and committee meetings.
> - View a calendar or all past and present board and committee meeting dates.
> - Find and search all relevant documents - bylaws, manuals, guides, regulations and resolutions.
> - Create, manage and assign tasks for board members, staff and other users.
> - See an overview of key financial metrics related to your organization.
> - Access contact information for all board and committee members.

BellesBoard highlights:

- ❖ Saves time (less email!)
- ❖ Saves money (less printing!)
- ❖ Improves board engagement

- ❖ Increased security
- ❖ Custom role-based permissions
- ❖ 24/7 customer support

How can I learn more about *BellesBoard*?

If you would like to schedule a demo, contact cdeska@bellesboard.com or 646-902-1550.
